052	Sodium	%	0,16	0,16	0,16
Som 15	Phytase		Added	Added	Added
Som 16	NSP Enzyme		Added	Added	Added
ZC	Coccidiostat		Not Added	Not Added	Not Added
554	Mycotoxin binder		Not Added	Not Added	Not Added
999	Essential vitamins & trace minerals		Added	Added	Added

Important remarks:

- Mixing directions can change depending on the price and quality of local available raw materials.
- Consult the local legislation for possible regulations regarding use of feed additives such as coccidiostats and withdrawal time.
- To achieve good results, follow up on the mixing instructions! Do not alter or change without consult.
- Always make sure all birds have access to enough feed.
- Ensure proper quality of the limestone used. Quicktests are available, ask your local representative for more information.
- To avoid drop in feed intake; ensure the change of feeds (from Starter to Grower feed etc.) happens gradually.
- Be biosecurity wise; use disinfection materials, keep separate shoes for the bird houses only.
- In case of management related issues, ask for the Koudijs Management Guide.
- Make sure birds always have access to fresh, cool and clean water.
- Economy mixings are focused on a low price per kg of complete feed and an economical performance.
